New Oncology and Haematology Day Unit

Hospital of St Cross, Rugby

Beth Harrison, Clinical Head of Service

Sam Neale, Chemotherapy Services Manager

New Clinic and Day Unit Facility for Oncology and Haematology Patients

- Clinics
- Day unit care including Chemotherapy
- DVT and Anticoagulant service

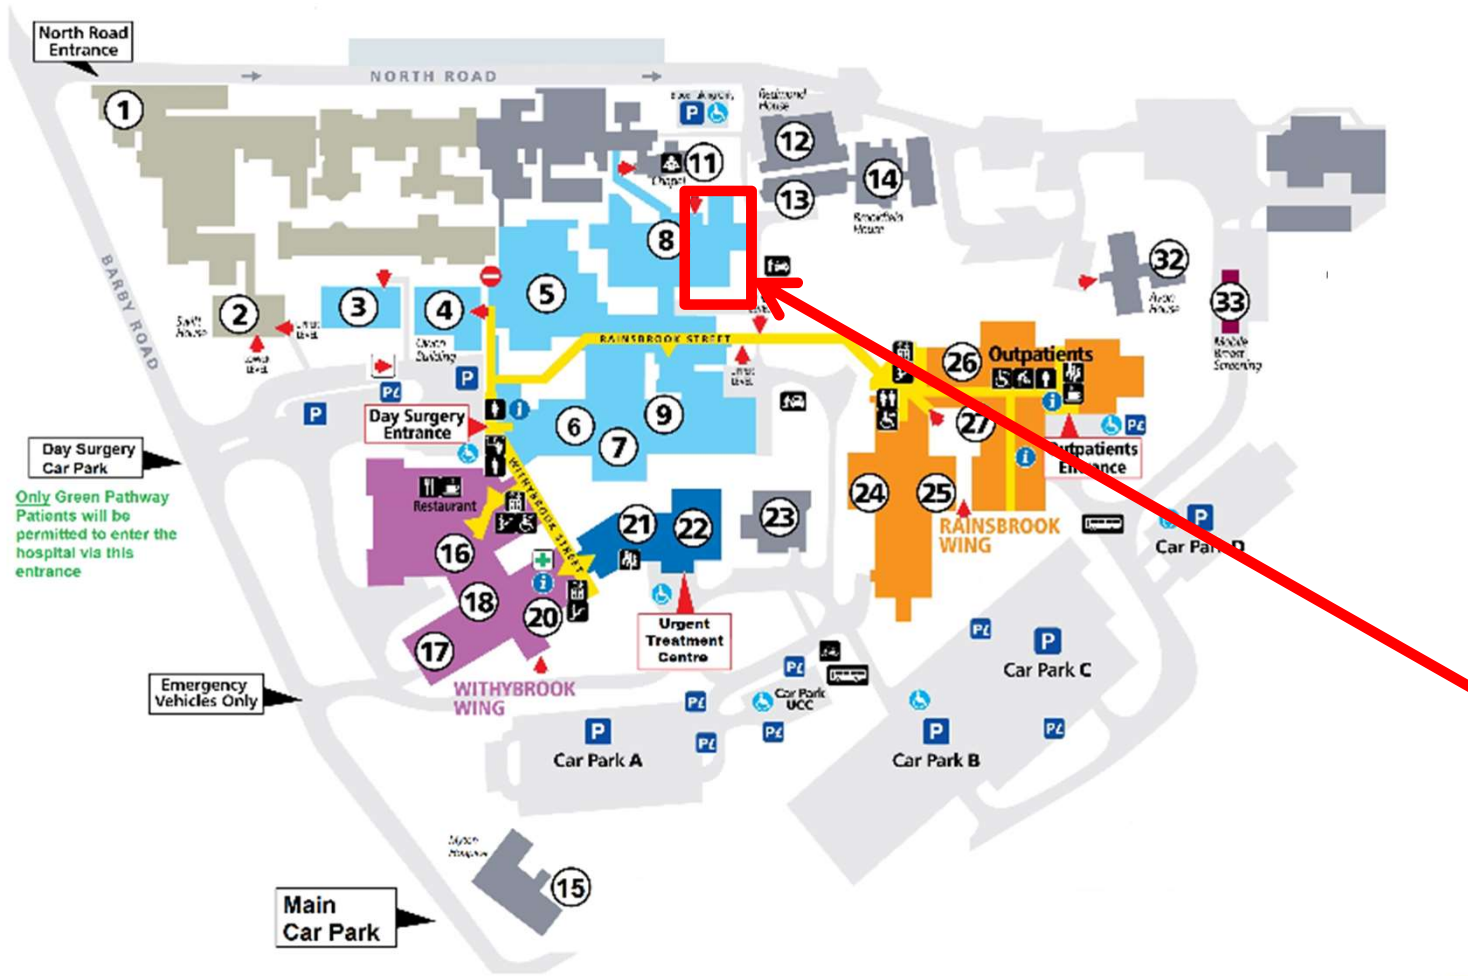

Background – current provision

- Haematology:
 - clinics, anticoagulant and DVT services
 - some day unit services at the Hospital of St Cross
- Oncology:
 - small number of clinic slots
- Clinics, day unit and office dispersed across site
- No chemotherapy is given on the Hospital of St Cross site

Current Haematology Day Unit at St Cross

Location for New Unit

Only Green Pathway Patients will be permitted to enter the hospital via this entrance

Emergency Vehicles Only

Main Car Park

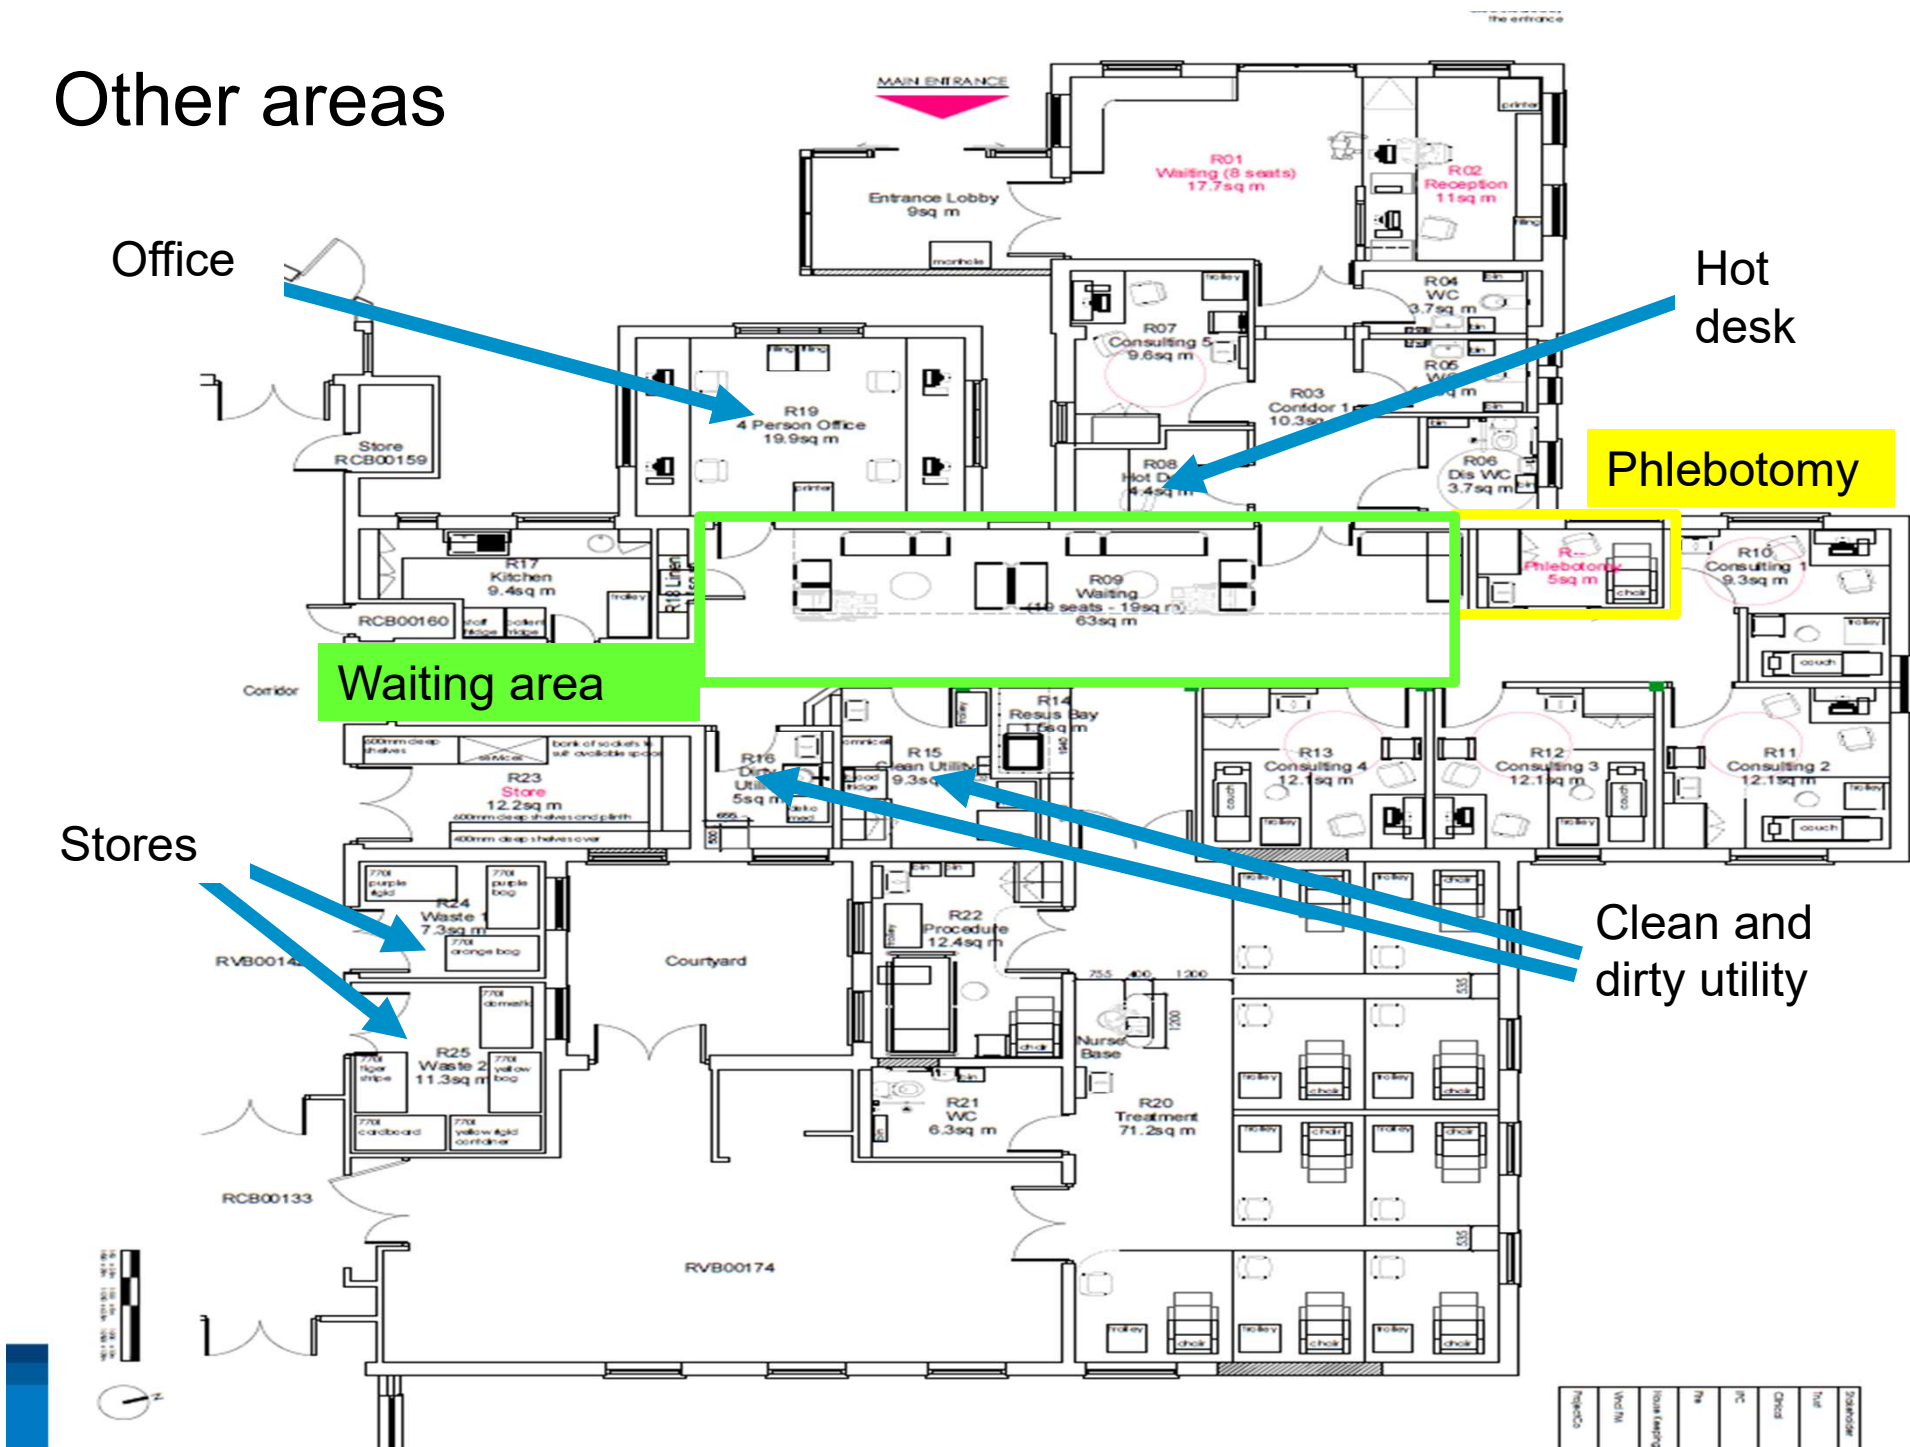

“Old Mulberry Ward”

- Previous use – rehabilitation ward
- Current use
 - storage for broken equipment
 - CPR and other training for new nursing colleagues from abroad
 - Many rooms are not currently fit for any use
 - Usually locked
- Proposed use:

Planned new Integrated Unit

- Clinic, day unit and admin staff co-located
- Expansion in clinic activity on St Cross site (Oncology)
- Full utilisation of 5 new clinic rooms (Haematology and Oncology currently share 2)
- Chemotherapy delivered at Hospital of St Cross for the first time in purpose built day unit
